## PROFILE

Multidisciplinary designer with 15+ years building brands, campaigns, and digital products that actually convert. Currently a UX Designer at Wynn Resorts, shaping guest facing experiences inside a luxury design system. I work where cultural relevance meets systems thinking: large scale entertainment campaigns, artist merch, UX flows, component libraries, motion, and AI powered internal tools I design and ship myself. Equally comfortable leading vision in a boardroom and executing in Figma at 2AM. Open to remote UX, product, and visual design roles where the brand has a real identity and design gets a seat at the table.
